

SMALL BUSINESS SUVEY:

At V.KAN EXPORT, we can manufacture & ship almost any bearing. Is this good for your business?

Yes.

No. Sure, you might be the experts when it comes to manufacturing & shipping, but when it comes to procrastinating & beating around the bush, i'm stillthe undisputed king.

.Kan. Export

AN ISO 9001: 2008 CERTIFIED CO.
Manufacturers & Exporters

Can
Bearings

INTRODUCTION

V.KAN.EXPORT was established to manufacture the most widest range of automotive as well as industrial bearings. It is engaged in serving the export markets & has its exports round the globe.

The group consists of their parent company formally known as Bearing Cave, established in 1978, which is engaged in serving the Indian domestic market and also has a huge share of its sales in serving the Indian merchant exporters.

The brands produced by **V.KAN.EXPORT** are **CAN & CNC** where each & every bearing reflects by itself the commitment of quality, workmanship & customer satisfaction.

The concern of **V.KAN.EXPORT** is the consumer, the emphasis on innovation and their stand on quality which makes them a leading force of bearing manufacturers in the country.

"At '**V.KAN.EXPORT**', we are proud of what we do".

SILENT FEATURES

MATERIAL USED	: SAE - 52100
HEAT TREATMENT	: Bearing races and rollers are hardened and tempered at 58 to 62 HRC.
DIMENSIONS	: It lives within standard dimensions and tolerances.
FINISHING	: Bearing races and rollers are pressed through lapping process to achieve super micro finishing.
INSPECTION	: All the components and bearings assembly passed under hard inspection in our quality control department which gives assurance about quality and life of bearings

OUR R&D DIVISION UNDERTAKES PRODUCTION OF BEARINGS AS PER CUSTOMERS REQUIREMENTS, DRAWINGS OR PHYSICAL SAMPLES

PRODUCT RANGE

- Deep groove ball bearings
- Double row angular contact ball bearings
- Self aligning ball bearings
- Tapered roller bearings
- Cylindrical roller bearings
- Thrust bearings
- Clutch bearings
- Needle Roller bearings
- Integral shaft bearings
- Plummer blocks / Pillow blocks
- Spherical roller bearings
- Spherical plain bearing
- Thrust Ring
- Flat Sealing Washers
